Cenik parkiranja na parkiriščih, ki so namenjena splošni javnosti, je objavljen na spletni strani Upravljavca ter na vhodih na posamezne parkirne površine.

Najemniki so za najem parkirnega prostora dolžni poravnati parkirnino. Abonenti višino in način parkirnine predhodno pisno dogovorijo z Upravljavcem, dnevni najemniki dolgujejo parkirnino po ceniku za uporabo. Veljavni cenik je objavljen na spletni strani www.lju-airport.si/sl/parkiranje-na-letaliscu/ in pred vhomom na vsako parkirno površino.

Čas parkiranja se beleži avtomatično, tako za abonente kot za dnevne najemnike. Ob prehodu vozila skozi dvižne zapornice se v informacijskem sistemu zabeleži registrska številka avtomobila, datum in ura prehoda zapornice. Dnevni najemnik je parkirni listek dolžan shraniti do izstopa iz parkirnih površin. V primeru izgube parkirnega listka ali parkirne kartice, je Upravljavec upravičen najemniku poleg obračunane najemnine dodatno zaračunati tudi znesek v skladu z veljavnim cenikom. Najemnik, ki parkira na parkirnih površinah, mora vstopiti in izstopiti z istim parkirnim listkom oziroma parkirno kartico, ker sta povezana z registrsko številko vozila. V primeru izgube parkirnega listka oziroma parkirne kartice, najemnik izstopi iz parkirnih površin z novo izdanim parkirnim listkom, ki ga dobi po plačilu svojih obveznosti na blagajni oziroma parkomatu.

V primeru dnevnih najemnikov se šteje, da najem enega od razpoložljivih parkirnih mest traja do plačila parkirnine na parkomatu ali blagajni, potem mora dnevni najemnik v 15-ih minutah zapustiti območje parkirnih površin. Če dnevni najemnik zapusti parkirne površine na način, da plača parkirnino na parkomatu ali blagajni in zapusti območje parkirnih površin v roku 15 minut od plačila, se najem parkirnega

The use of all parking areas at the airport is only possible on the basis of the payment of a parking fee, or compensation for the use of parking areas. The price of parking is charged to the User:

- in accordance with the valid parking price lists,
- in accordance with the contractual provisions, in case of a concluded contract with the User,
- in accordance with extraordinary commercial arrangements.

The price list for public car parking in parking areas is published on the Operator's website and at the entrances to individual parking areas.

Tenants are obliged to pay the parking fee for renting a parking space. Subscribers agree on the amount and payment terms in advance with the Operator, daily tenants owe the parking fee according to the price list for use. The valid price list is published on the website <https://www.lju-airport.si/en/ljubljana-airport-parking/> and in front of entrances to individual parking areas.

The parking period is recorded automatically, both for subscribers and for daily tenants. When the vehicle passes through the barriers, the car's registration number, date and time of passage of the entrance unit are recorded in the information system. The daily tenant is obliged to save the parking ticket until leaving the parking area. In case of loss of the parking ticket or parking card, the Operator is entitled to additionally charge the tenant the amount in accordance with the applicable price list in addition to the calculated rent. The tenant who parks in the parking areas must enter and exit with the same parking ticket or parking card, because they are linked to the vehicle's registration number. In case of loss of the parking ticket or parking card, the tenant exits the parking areas with a newly issued parking ticket, which he receives after paying his obligations at the cashier's office or parking machine.

In the case of daily tenants, the rental of one of the available parking spaces is considered to last until the payment of the parking fee at the parking machine or cashier's office, after which the daily tenant must leave the parking area within 15 minutes. If the daily tenant leaves the parking area by paying the parking fee at the parking machine or the cashier's office and leaves the parking area within 15 minutes of

mesta prekine. V nasprotnem primeru se najemno razmerje nadaljuje, saj Upravljavec hrani za najemnika parkirno mesto in ga ne odda drugemu najemniku.

V kolikor dnevni najemnik ni plačal parkirnine na parkomatu ali blagajni ter prekinil najemnega razmerja na, v predhodnem odstavku, opisan način in najem še traja, ter je ob ponovnem uvozu na območje parkirnih površin dnevni najemnik prevzel nov parkirni listek, ker sistem za avtomatsko prepoznavo registrskih označb ni zaznal registrske oznake vozila, se je dnevni najemnik dolžan nemudoma zglasiti na blagajni, kjer mu novi parkirni listek zamenjajo s prvotnim parkirnim listkom za najem. Kakršnokoli drugačno postopanje dnevnega najemnika pomeni, da je dnevni najemnik z Upravljavcem sklenil novo najemno pogodbo za dodatno razpoložljivo parkirno mesto na območju parkirnih površin. Dnevni najemnik je dolžan plačati parkirnino za celotno dobo najema parkirnega mesta, t.j. od trenutka prevzema parkirnega listka do trenutka obračuna najemnine ter ugotovitve prenehanja najemnega razmerja.

Najemnik, ki ni poravnal parkirnine skladno z najemno pogodbo, je dolžan poravnati tudi vse potrebne stroške poizvedb, opominov in odstopa od pogodbe ter pravnih, izvršilnih in druge potrebne stroške.

Izjema so večji avtobusi (50+ potnikov), katerim Upravljavec omogoča brezplačno parkiranje na avtobusni postaji.

Za plačilo parkirnine so namenjena točno določena plačilna mesta, in sicer parkomati ter parkirna blagajna. Navodila v zvezi s plačevanjem parkirnine so navedena na spletni strani Upravljavca.

V kolikor ima Uporabnik kakršnekoli težave pri plačilu parkirnine, je o tem dolžan nemudoma obvestiti pooblaščen osebje Upravljavca ali v času delovnika parkirne blagajne na telefonsko številko 04 206 14 09 ali po e-pošti na naslov: parking@fraport-slovenija.si.

payment, the rental of the parking space is terminated. Otherwise, the rental relationship continues, as the Operator keeps the parking space for the tenant and does not rent it to another tenant.

In case the daily tenant has not paid the parking fee at the parking machine or cashier's office and has not terminated the rental relationship in the manner described in the previous paragraph, the rental is still in effect. Upon re-entering the parking area, the daily tenant has taken over a new parking ticket, because the system for automatic recognition of registration numbers did not recognize the vehicle's registration number. Therefore, the daily tenant must immediately report to the cashier's office, where the new parking ticket will be replaced with the original rental parking ticket. Any other behaviour of the daily tenant means that the daily tenant has entered into a new rental agreement with the Operator for an additional available parking space in the area of the parking areas. The daily tenant is obliged to pay the parking fee for the entire period of renting the parking space, i.e. from the moment of taking over the parking ticket until the moment of calculating the rent and determining the termination of the rental relationship.

A tenant who has not paid the parking fee in accordance with the rental agreement is also obliged to pay all the inevitable costs of enquiries, reminders and withdrawal from the contract, as well as litigation, enforcement and other costs.

The exception is larger buses (50+ passengers), for which the Operator allows free parking at the bus station.

Specific payment points are intended for paying the parking fee, namely parking machines and the parking cashier's office. Instructions regarding the payment of the parking fee can be found on the Operator's website.

If the User has any problems with the payment of the parking fee, he is obliged to immediately inform the authorized staff of the Operator or, during the working hours of the parking cashier office on the telephone number 04 206 14 09 or by e-mail to the address: parking@fraport-slovenija.si.

Uporaba abonentskih kartic za odpiranje zapornic mora vedno potekati v zapovedanem zaporedju, torej vhodu sledi izhod, itd., razen v primerih, kjer bi bilo izredno določeno drugače (ločeni dogovori).

Če je Uporabnik po pogodbi oziroma naročilnici v zamudi s plačilom več kot 15 dni, Upravljavca abonentsko kartico blokira, dokler Uporabnik ne plača parkirnine, stroškov opomina, zamudnih obresti in stroškov izterjave.
